Please take this Orthodox Study Bible *Reading Guide* and fold it in half so you can see 3 months at a time and put it in your Bible so you can read through the Bible in a year. The numbers in parentheses are the page number in the Orthodox Study Bible where that Book of the Bible begins, when space allowed for us to note that.

Remember, we only read Monday through Saturday, **Sunday we go to Church** and focus on the Scriptures and message given that day.

(Starting after the 1st Sun each Month)

The area for December is pretty much left without Bible Radings so that you can follow readings your Church has given to prepare for this time of year **or** to reflect on passages that have meant something to you throughout the year and you want to look at again at year's end.

Brother Charles (nektarios ippotis) would like to thank Noel Bailey for the lap-top computer and Alice Davis for the help in putting this together. **If there is any good in this Guide, the glory goes to God, for it is HE that really did it.**
